

# CRAFTSMANSHIP

HANDCRAFTED • STABILITY • STRENGTH

Each Champion Spas® mold is **HANDCRAFTED** in our Latham, NY facility giving us total control over the finished product.

The spa shells **STABILITY** comes from an ABS backed surface which is reinforced with a custom rigidizer we call AcryloBond™.

Our 2" x 4" cedar framing and cabinet construction provides **STRENGTH** and longevity to the Champion Spas®.

DURABILITY • QUALITY • EFFICIENCY

MultiWeather™ exterior is designed with **DURABILITY**. It is the same material throughout the product, so it will look great for years to come.

The Champion Spas® System ensures **QUALITY** is our priority. Each spa is put through a rigorous series of tests and inspections before being shipped.

The Champion Spas® ThermalCore™ System offers **EFFICIENCY** by surrounding the spa shell keeping the heat in, and the cold out.

CREDIBILITY • SAFETY • SIMPLICITY

Champion Spas® allow you to be as confident in our product **CREDIBILITY** as we are. Each spa receives UL listing from Underwriters Laboratories ensuring that only quality product standards and practices were used in its manufacture.

An enjoyable spa experience starts with **SAFETY**. Champion Spas® boast a textured finish, treaded footwell, contoured grab collar, UL listing and an ASTM rated locking safety cover shown above.

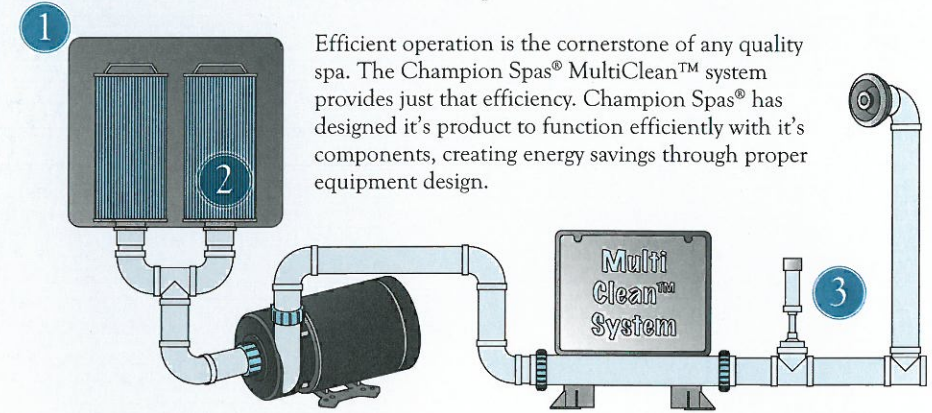

**SIMPLICITY** is often the hallmark of a quality design. All of Champion Spas® functions are preprogrammed. Each unit is operated with the simple push of a button.

# Champion Spas® ENGINEERING

## The MultiClean™ System

All of the Champion Spas® offer a MultiClean® System, which provides circulation through a skimmer, then through the Microban Filters, and allows MultiZone™ Ozone to be drawn into the spa water.

Efficient operation is the cornerstone of any quality spa. The Champion Spas® MultiClean™ system provides just that efficiency. Champion Spas® has designed it's product to function efficiently with it's components, creating energy savings through proper equipment design.

1

### MultiPure™ Circulation

Easy access topload filtration provides each spa with power filtration cycles that circulate and skim thousands of gallons of water every day.

2

### Microban® Filters

Microban® is designed to inhibit odor, mold and mildew on the surface of the filter.

3

### MultiZone™ Ozone

The Champion Spas® use MultiZone™ ozone creating water that provides a more comfortable soak.

Champion Spas® Available At:

Visit us online at [www.championspas.com](http://www.championspas.com)

All 60 cycle units (Domestic and Canada) are 240 volt 50 amps. All 50 cycle units (International) are 230 volt 16 amps. International 50hrz models may vary in specifications and features. Models with International specifications are only available through International Distributors.

**Jets:** Summary of total number of jets in each unit. This number includes, jet faces only not the individual outlets at each jet.

**Pumps:** A total of the pumps behind the Hydrotherapy System. Each model has one dual speed pump.

**MultiZone™:** MultiZone™ Ozone System is the Champion Spas® custom designed ozone diffusion process which combines with the Microban® Filtration System. Standard in the Champion Spas® Line.

**ThermalCore™:** ThermalCore™ warm air retention system efficiently uses the spas waste heat to aid in this insulation system.

**MultiClean™:** A Champion Trademark and the heart of the Champion Spas® Operation System. The MultiClean™ Circulation System operates a dual speed energy efficient pump so your water is warm, always clean, and waiting on your demand.

WARNING: The consumer products safety commission has stated that the water temperature in a spa or hot tub should not exceed 104°F. Immersion in water in excess of 104°F could be hazardous to your health. Children, aged persons, persons having medical problems, and pregnant women should consult their physicians before using a spa or a hot tub. Spas or hot tubs should not be used by persons under the influence of alcohol or by persons taking medications that cause drowsiness.

Saratoga Spa & Bath Co., Inc. reserves the right to make changes in product characteristics, standard equipment supplied or available at any time without notice.
